

Full Stack Developer - Rut Kav

052-7631820 | 0527631820@gmail.com | [GitHub](#)

Results-driven Full Stack Developer with analytical thinking and a proven ability to master new technologies independently and rapidly. Experienced in end-to-end web development, integrating advanced AI tools to streamline workflows and enhance system performance. A collaborative team player with excellent interpersonal skills, excelling in solving complex logical problems in dynamic, high-pressure environments while maintaining rigorous coding standards.

Professional Experience

Ministry of Finance - Capital Market Authority | Software Developer February 2026 - June 2026

- **Full-Stack Development:** Developed Full Stack end-to-end features for the organization's core system and built dynamic Angular interfaces for complex systems.
- **Backend Engineering:** Handled backend development using .NET Core and C#, building APIs, and implementing complex business logic.
- **Database Integration:** Integrated Oracle databases using Stored Procedures and optimized queries for core business logic.
- **Security & Collaboration:** Worked collaboratively using Git/TFS while maintaining rigorous coding standards and development lifecycle best practices.

Notable Projects

E-Commerce System Independent Project

- **Architecture & Tech Stack:** Node.js, C#, Web API, SQL Server, MongoDB (Backend) | React, JavaScript, HTML5, CSS3 (Frontend).
- **Core Features:** Developed advanced dynamic UI, product catalog, filtering, and real-time shopping cart management.
- **API Engineering:** Built robust APIs for inventory management, orders, and user authentication systems.
- **Admin Panel:** Implemented a complete Admin Panel for CRUD operations, modern responsive design, and optimized performance.

Education

Software Practical Engineering | "Ha-Chadash" College, Jerusalem 2024 - 2026

- **Ultra Code Course:** Advanced program specializing in high-tech subjects: Algorithms, Data Structures, Graph Theory, and Operating Systems.
- **Teaching Studies:** Studies toward a "Senior Teacher" degree.
- **Certificate of Excellence:** Received a Certificate of Excellence in English from "Kivun" College. **"Ha-Chadash" High School, Jerusalem** 2020 - 2024 - **Academic Honors:** Graduated with Honors; High School Diploma including 5 units of Mathematics.

Technical Skills

Programming Languages: Java, C, C#, Python.

Web Development: Angular, React, Node.js, JavaScript, TypeScript, .NET Core, Spring Boot, Web API, HTML5, CSS3. **Databases:** SQL Server, MongoDB, Redis.

Development Tools: AWS, Azure, Git, Postman, Visual Studio, Salesforce, VS Code.

Technical Expertise

AI Development Tools: Highly proficient in GenAI tools (GitHub Copilot, Amazon Q) to streamline development and ensure code quality.

Architecture: Experienced in Microservices architecture, clean code practices, and logical problem-solving in high-pressure environments.

Languages

Hebrew: Native speaker. | **English:** Highly proficient (Technical and Spoken).
